SYRINGES

- > PoUpropilen
- > Maksimum hacme kadar kolayaspirasyon
- > Minimumkalıntihacmi
- > Yüksek sızdırmazlık
- > Kolay vekonforlupiston hareketlili
- > Güvenlik i in piston durdurma noktas,
- > Medikal kagıt vet1bbi malzeme iiretimineuygun effaf film ambalaj
- > ED Sterilizasyon

- > **Made of polypropylene**
- > **Easy aspiration up to maximum volume**
- > **Minimal residual volume**
- > **High impermeability**
- > **Easy andcomfortable piston movement**
- > **Safe plunger backstop**
- > **Medical grade blister packing consisting of transparent film**
- > **EO Sterilization**

with every product we
produce your **HEALTH**
is guaranteed

50 ML SIRINGALAR 50 ML SYRINGES

TEKNOLOJİ
MEDİKAL

- > Polypropylene
- > Maximum volume easy aspiration
- > Minimum residual volume
- > High strength
- > Easy and comfortable piston movement
- > Safety stop on piston
- > Medical grade blister pack; consists of transparent film
- > EO Sterilization

- > Made of polypropylene
- > Easy aspiration up to maximum volume
- > Minimal residual volume
- > High impermeability
- > Easy and comfortable piston movement
- > Safety plunger backstop
- > Medical grade blister pack; consists of transparent film
- > EO Sterilization

MEDİKAL

İNSÜLİN ENJEKTÖRLERİ INSULIN SYRINGES

- > Polipropilen plastik malzeme
- > Maksimum hacme kadar kolay aspirasyon
- > Minimum kalıntı hacmi
- > Yüksek sızdırmazlık
- > Kolay ve konforlu piston hareketliliği
- > Güvenlik için pistondurdurma noktası
- > Tıbbi malzeme üretimine uygun medikal kaliteli ve effaf film ambalaj
- > EO Sterilizasyon

- > Made of polypropylene
- > Easy aspiration up to maximum volume
- > Minimal residual volume
- > High impermeability
- > Easy and comfortable piston movement
- > Safe plunger backstop
- > Medical grade blister packing consisting of transparent film
- > EO Sterilization

with every product we
produce your **HEALTH**
is guaranteed

VETERİNER İRİNGALARI VETERINARY SYRINGES

TEKNOLOJİ
MEDİKAL

- > Polypropylene
- > Maximum volume easy aspiration
- > Minimum residual volume
- > High dimensional accuracy
- > Easy and comfortable piston movement
- > Safety lock in piston stop position
- > Medical grade and biocompatible material suitable for sterilization
- > EO Sterilization

- Made of polypropylene**
- > **Easy aspiration up to maximum volume**
- > **Minimal residual volume**
- > **High impermeability**
- > **Easy and comfortable piston movement**
- > **Safe plunger backstop**
- > **Medical grade blister pack consisting of transparent film**
- > **EO Sterilization**

- > Yüksek kalitede paslanmaz çelik iğne
- > %6 Luer
- > Uluslararası standartlarına uygun, ISO 6009
- > İğnenin bütününe koruyucu kapak
- > Medikal kalitede ve veteriner malzeme üretimine uygun effaf film ambalaj
- > EO Sterilizasyon

- > High quality stainless steel needle
- > 0/06 Luer
- > Suitable for international color standards, ISO 6009
- > Protective cap that protects the integrity of the needle
- > Medical grade blister pack; consists of transparent film
- > EO Sterilization

with every product we
produce your **HEALTH**
is guaranteed

KORUMALI İGNE UCU PROTECTED NEEDLE TIP

TEKNOLOJİ
MEDİKAL

- > Yüksek kalitede paslanmaz elik iğne
- > %6 Luer
- > Uluslararası renk standartlarına uygun, ISO 6009
- > iğnenin bütünlüğünü koruyan koruyucu kapak
- > Medikal kalite ve tıbbi malzeme üretimine uygun (üç katlı film ambalaj)
- > EO Sterilizasyon

- > High quality stainless steel needle
- > %6 Luer
- > Suitable for international color standards, ISO 6009
- > Protective cap that protects the integrity of the needle
- > Medical grade blister pack consisting of transparent film
- > EO Sterilization

KAN VERME SETLERİ BLOOD TRANSFUSION SETS

TEKNOLOJİ
MEDİKAL

- > SterilTek kullanımlık
- > Tek elle kolayca kullanılabilen rollerdamla ayarlayıcısı
- > Kan filtrelisi
- > Luer Lock/ LuerSlip
- > Non toksikveapirojenik
- > 18G hipodermik iğne
- > Kapaklı hava yolu
- > EO Sterilizasyon

- > Sterile, Disposable
- > Easy one-handed roller drip adjuster
- > With blood filter
- > Luer Lock/ Luer Slip
- > Non toxic and apyrogenic
- > With 18G hypodermic needle
- > Covered airway
- > EO Sterilization
